

# Cross-Hatch Cutter

Model #CA-15110/20/30/40/50  
Model #CA-15310/20/30/40/50

## Cross-Hatch Cutter

Manufactured under ISO 9001 Quality Management System

The BEVS Cross-Hatch Cutter, available in various configurations based on number and separation of blades, is designed to test the adhesion of paint according to ASTM D3359 and ISO 2409-1992 standards. The cutting head comes with four sets of blades, and replacement heads are available. Replacing or rotating the blades is quick and simple.
